Course Description: This is a course examining the operating of a small business. Emphasizes the functions including planning, leading, organizing, staffing, and controlling operations.

Course Learning Outcomes: The student will identify the aspects of operating a small business; describe human resource functions including employee development; explain the elements of total quality management; and compare purchasing procedures, inventory control, and computerized operations between/among small businesses.

HOW THIS COURSE IS CONDUCTED: This course is an online course, which means that you will access course information and respond to me and/or other students through the use of the Internet. Blackboard is used to deliver and manage this course, as well as Cengage Mind Tap. Blackboard and Cengage are software packages that are written to help manage online courses. You are encouraged to use the Blackboard course email to ask the instructor any questions you may have about the course etc.

**Textbook -
Small Business Management, Longenecker, 18th Edition**

Inclusive Access: All of you have the electronic textbook and digital homework already paid for through your tuition! Which is awesome! You will have first day access to your E-Textbook and homework assignments through this Blackboard course!!

To access your course materials and explore Cengage Unlimited, log in to Blackboard and click on the left hand menu link that says “Weekly Assignments” . When prompted, log in with your Cengage account info (or register if it is your first-time using Cengage) and follow the prompts to complete the registration process.

- **Print books:** For every Cengage digital course activation (i.e. *MindTap*, *WebAssign*, *OWL*, *SAM*, *CengageNOWv2*, etc.) within Cengage Unlimited, you will be offered a print rental—they pay just \$7.99 + free shipping. Print rentals can be redeemed only within Cengage Unlimited and shipped directly to you. Alternatively, discounted loose-leaf options will be made available if you are enrolled in digital products as well.

LOGGING INTO COURSE: Under no circumstances are you allowed to give your User ID and/or password to anyone. If someone, besides you, is logging into this course, I will drop you immediately with an ‘F’, regardless of the reason.

COMPUTER REQUIREMENTS: I do not recommend any particular brand of computer. It is the responsibility of the student to make sure that they have the necessary computer resources and skills to take this class. Students are not required to purchase their own computer, but must have frequent regular access to one that meets specifications. There are computer labs available for student use on our Levelland, Lubbock Center, and Reese Center campuses.

Check Your Internet Access

The computer you are using must be able to connect to the Internet to access the Blackboard website.

To be able to participate in this online course, a student needs to have the following abilities:

- Typing and word processing skills.
- Know basic functionality of a computer and how to do basic troubleshooting.

- Know how to connect to the Internet.
- Know basics of how the Internet works and how to search and conduct research using the Internet.
- Know how to attach and open documents in an e-mail message.
- Have basic file management skills.
- Know how to save and delete documents.

ATTENDANCE POLICY: Even though this is an online class, students still have to access the course on a regular basis. **Minimum log in for the course is at least four (4) days per week. Additionally, you should not let more than 72 hours pass without logging in.**

The Blackboard software used to manage this online course tracks student logins, tracking when and where the student has been in the course. Accessing this course on a regular basis is extremely important in order to meet the objectives of this course. Ideally, students should daily check the semester schedule, e-mail, and also check for announcements and fellow student discussions. This course is not 100% self-paced—**there will be deadlines.** You will feel more at ease with the materials if you stay in touch with what is going on. This course is 3 semester credit hours. For this reason, you should set aside a minimum of 6 hours per week to work on this course. One of the very first things you should do is set aside time each week to work on the class. It is very easy to put off attendance in an online course.

A STUDENT IS RESPONSIBLE FOR INITIATING THEIR OWN WITHDRAWAL, if that becomes necessary. A student who stops attending and stops completing assignments, must take the responsibility of contacting the Registrar's Office to drop the class.

I do not drop students for non-attendance. It is your responsibility to initiate the drop process if you decide not to complete the course. Students who stop attending and do not complete the coursework will receive an F at the end of the semester.

PLEASE NOTE: The last day to drop this course is April 28th, 2022.

RESPONSE TIMES: You should expect responses from me within 48 hours to emails sent using Blackboard email. If you haven't received a response within that time, communicate to me again either through email and/or telephone. It is possible your initial communication had not been received. I will not guarantee a response to email during SPC scheduled school holidays or on weekends.

Certiport Required Certification Exam = At the end of April 2022, you will be required to take the Entrepreneurship and Small Business Certiport Certification Exam. The test fee and practice exam fees are built into your tuition and have already been paid for! You will be able to practice for the exam throughout the entire semester with GMetrix software, which will be available for you to practice on your own. But you must come to a physical Certiport testing center OR take the Certiport exam from your computer at home (monitored by a testing proctor from Certiport), at the end of April 2022. You can schedule this exam around your schedule – testing center is located in Levelland. And you can now also test at home during a pre-scheduled appointment time. (due to the impact of COVID-19)

I will give you an individual code for the practice software that you can use at your convenience on your own computer.! I will also send you a code to take with you to the testing center when you schedule your exam. You have 2 takes for the exam! You can test once, see if you pass, and then re-test if you do not pass on the first take!

Please let me know if you have questions about this! Do not stress about this exam! It is required of ALL students who take this Small Business Operations course at SPC! This course is a capstone course for the Business Associate degree and this Certiport exam is an excellent certificate to hold, include on your resume, and for employers to see!

I will send out more information on this topic through Blackboard email this semester!
